

Quality Policy

The company has a defined quality system which is cost effective in meeting the specified standards required by the customer. The Company recognises the needs to maintain and continually improve on its quality performance in meeting the ever changing technology of which it plays its part, ensuring that all the functions and activities relating to its processes are recorded and independently audited.

Senior management fully endorses the stated policies, objectives and control methods and is dedicated in meeting their requirements. It is the responsibility of all employees to ensure that the company procedures are adhered to at all times while maintaining appropriate legislation requirements.

The business plan provides a series of objectives and targets which are measured and analysed, thereby monitoring the company's performance and leading to progress by the utilisation of continuous improvement methods'
