## METAL DETECTION

### METAL DETECTOR FOR VIBRATORY CONVEYORS

**Reliable** in Process and Detection  
**Durable** in Technology and Performance  
**Easy** in Installation and Handling

- No 'metal free zone' required
- Highly sensitive to ferrous, non-ferrous and stainless steel
- Quick and easy installation
- User friendly operation
- Models to fit every application
- No matter which shape your trough, we have the right size metal detector!

#### Applications

Machinery protection  
e.g. chippers

#### Installation

- Cut the trough according to the drawing.
- Install the sensing coil.
- Allow for movement of the interconnecting cables (coil to electronics).
- Form a 20 cm (8") loop with the transmitter/receiver cables at the coil end.
